About ASCI

Asian Satellite Campuses Institute (ASCI) has been established to implement the Transnational Doctoral Programs for Leading Professionals in Asian Countries initiative in select countries. As of 2024, seven Nagoya University graduate schools offer doctoral degree programs through ASCI. Through the extensive use of technology and our dedicated staff, ASCI forms the essential link between the Transnational Doctoral students and Nagoya University's main campus. Eligible candidates should be senior officials of governments or individuals serving in leading positions in designated countries.

*Designed to meet
the needs of the evolving
and dynamic Asian region*
